When instructions regarding the location of an interment space in a lot cannot be obtained, or are indefinite, or when, for any reason, the interment space cannot be opened where specified, the Trustees may, in their discretion, authorize it opened in such location in the lot as they deem best and proper, so as not to delay the funeral; and the Town shall not be liable in damages for any error so made. In all cases, the responsibility of the Trustees shall be limited to authorizing the opening. The person authorized to do so must make the opening of the grave and the actual disinterment.
- J.** The Trustees and the Town shall in no way be liable for any delay in the interment of a body where a protest to the interment has been made, or when the Regulations have not been complied with; and further, said Trustees reserve the right, under such circumstances, to place the body in a receiving vault until the full rights of the parties have been determined. The Trustees shall be under no duty to recognize any protests of interment unless they are in writing and filed with the Trustees.
